LETTER OF TRANSMITTAL.

U. S. Department of Agriculture,
Office of Experiment Stations,
Washington, D. C., December 1, 1905.

Sir: I have the honor to transmit herewith manuscript of a bulletin containing the organization lists of agricultural colleges and experiment stations in the United States. The matter has been compiled under my direction by Miss M. T. Spethmann and Miss Mary Agnew of this Office, and I recommend its publication as Bulletin No. 161.

Respectfully,

A. C. True,
Director.

Hon. James Wilson,
Secretary of Agriculture.

COURSES OF STUDY.

The courses of study are thirteen, requiring four years for completion. The five courses in agriculture (agronomy, dairying, animal husbandry, horticulture, and science and agriculture) lead to the degree of B. S. A.; the course in veterinary science, to the degree of D. V. M.; the course in mechanical engineering, to the degree of B. M. E.; the course in civil engineering, to the degree of B. C. E.; the course in electrical engineering, to the degree of B. S. in E. E.; the course in mining engineering, to the degree of B. S. in Min. E.; the course in science as related to the industries, to the degree of B. S.; the course in general and domestic science for women, to the degree of B. S., and the course in domestic science for women, to the degree of B. D. S. A one-year graduate course in agricultural engineering leads to the degree of B. A. E. There are also short winter courses in stock and grain judging, dairying, and domestic science.

COURSES OF STUDY.

Among the numerous courses of study offered by the university is one which leads to the degree of bachelor of the science of agriculture. This course requires four years for completion, and during the last two years the student selects most of his studies in work given by the departments of the college of agriculture. Postgraduate courses leading to advanced degrees are provided. The following courses are also offered: General agricultural special course, and nature-study special course; winter courses of eleven weeks in agriculture, poultry husbandry, horticulture, and dairy industry; and reading courses for farmers and farmers' wives.

COURSES OF STUDY.

The long course requires four years, leading to the degree of B. S. The short course covers two terms of fourteen weeks each. A certificate is granted to those completing the course. The winter dairy course lasts twelve weeks, and requires for admission six months' previous training in a creamery or cheese factory. A summer dairy course is offered to a

limited number of students, who will be admitted without previous factory training and may remain the whole season. To secure a dairy certificate the student must have two seasons' actual practice in a factory, one of which must follow his work at the dairy school. A two-week farmers' course, limited strictly to persons who are at least twenty-five years of age, is also offered.
